**OWNER'S DEDICATION**

**NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:**

That **DISK DEVELOPMENT, LLC** acting by and through its duly authorized agent, Diane Cheatham, does hereby adopt this plat, designating the herein described property as **URBAN COMMONS PHASE 2**, an addition to the City of Dallas, Dallas County, Texas, and does hereby dedicate, in fee simple, to the public use forever any streets, alleys, and floodway management areas shown thereon. The easements shown thereon are hereby reserved for the purposes indicated. The utility and fire lane easements shall be open to the public, fire and police units, garbage and rubbish collection agencies, and all public and private utilities for each particular use. The maintenance of paving on the utility and fire lane easements is the responsibility of the property owner. No buildings, fences, trees, shrubs, or other improvements or growths shall be constructed, reconstructed or placed upon, over or across the easements as shown. Said easements being hereby reserved for the mutual use and accommodation of all public utilities using or desiring to use same. All, and any public utility shall have the right to remove and keep removed all or parts of any building, fences, trees, shrubs, or other improvements or growths which in any way may endanger or interfere with the construction, maintenance or efficiency of its respective system on the easements, and all public utilities shall at all times have the full right of ingress and egress to or from the said easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining and adding to or removing all or parts of its respective systems without the necessity at any time of procuring the permission of anyone. (Any public utility shall have the right of ingress and egress to private property for the purpose of reading meters and any maintenance or service required or ordinarily performed by that utility).

Water main and wastewater easements shall also include additional area of working space for construction and maintenance of the systems. Additional easement area is also conveyed for installation and maintenance of manholes, cleanouts, fire hydrants, water services and wastewater services from the main to the curb or pavement line, and description of such additional easements herein granted shall be determined by their location as installed.

This plat approved subject to all platting ordinances, rules, regulations, and resolutions of the City of Dallas.

WITNESS, my hand at Dallas, Texas, this the \_\_\_\_\_ day of \_\_\_\_\_, 2017.

**FLOODWAY EASEMENT STATEMENT**

The existing water courses, creek or creeks described as Floodway Easement traversing along Block B/8420 within the limits of this addition, will remain as an open channel at all times and will be maintained by the individual owners of the lot or lots that are traversed by or adjacent to the drainage courses in Block B/8420. The City of Dallas will not be responsible for the maintenance and operation of said watercourses, creek or creeks or for any damage to private property or person that results from the flow of water along said creek, or for the control of erosion in the Floodway Easement.

No obstruction to the natural flow of storm water run-off shall be permitted by filling or by construction of any type of dam, bridge, fence, walkway or any other structure within the Floodway Easements, as hereinafter defined in Block B/8420, unless approved by the Chief Engineer of Sustainable Development and Construction; provided, however, it is understood that in the event it becomes necessary for the City of Dallas to erect any type of drainage structure in order to improve the storm drainage that may be occasioned by the streets and alleys in or adjacent to the subdivision, then in such event, the City of Dallas shall have the right to enter upon the Floodway Easement at any point or points, to erect, construct and maintain any drainage facility deemed necessary for drainage purposes. Each property owner shall keep clean and free of debris, silt, and any substance which would result in unsanitary conditions and the City of Dallas shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the property owner to alleviate any undesirable conditions, which may occur.

The natural drainage channels and watercourses through Block B/8420 as in the case of all natural channels are subject to storm water overflow and natural bank erosion to an extent which cannot be definitely defined. The City of Dallas shall not be held liable for any damages of any nature resulting from the occurrence of these natural phenomena, or resulting from the failure of any structure or structures within the Floodway Easement.

The natural drainage channel crossing each lot is shown by the Floodway Easement line as shown on the plat.

Floodway Marker monuments shall be installed, delineating the proposed Floodway Easement line, prior to filing of plat, along all rear or side lot lines that are adjacent to the creek as per City of Dallas drawing 424-109. The surveyor shall provide signed and sealed documentation that the Floodway Marker monuments have been installed prior to filing the Final Plat.
